

Grow With Us

Build your own portfolio under the Lux Oasis brand, or earn from every property you introduce

Prepared for: [Candidate Name]

Date: [Date]

The Opportunity

Lux Oasis Holiday Homes is a licensed Dubai short-term rental operator with a track record on the guest side: Superhost status, consistently strong reviews and premium guest experience standards. Over the past period we have deliberately restructured the company for scale: operating systems, SOPs, revenue management, technology and a renovation capability are all in place. The foundation work is done. Now we are switching to growth.

That is why we are talking to experienced business development professionals. We are not looking for juniors to train and we are not offering a job. We are offering people who are already excellent at opening doors the chance to build their own portfolio of units under our brand, licence and systems, and to earn a share of the profit from every unit they build for as long as they run it.

Where we are growing

- JBR and Palm Jumeirah (priority)
- Downtown Dubai
- Selected Dubai Marina buildings

What we look for

- Studios first, then 1-2 bedroom apartments, furnished or furnishable
- Owners open to profit-sharing: we stay flexible on the deal structure, including renovation-led deals where our licensed renovation team upgrades the unit to lift its earning power or resale value
- Realistic launch timing and numbers that work for everyone

Two Ways To Work With Us

Both routes are open to freelancers, from light commitment to full commitment. The difference is simple: introducers earn on what they bring, portfolio builders earn on what they run.

	Property Finder	Portfolio Builder
Your role	Introduce a property or owner and help us get to a serious meeting. We handle everything else.	Build your own portfolio of units under the Lux Oasis brand: source owners, sign them with our

	Property Finder	Portfolio Builder
		support, then run the owner relationship and unit performance using our systems.
Time commitment	Flexible. Fits alongside your existing work.	Real commitment. You are growing a business inside a business, backed by our brand, systems and team.
Your earnings	15% of Lux Oasis retained profit from your unit, for 12 months from launch.	Scales with commitment: 18% for 24 months if you only source • 25% ongoing while you actively run your units • up to 30% once you prove full end-to-end management of multiple units.
After signature	Nothing required. No guests, cleaning, pricing, reporting or owner management.	Your units stay yours to grow. Every unit you add compounds your monthly income.

Percentages are indicative and confirmed per property in a simple written agreement before launch. Strong finders can move into the Portfolio Builder route at any time.

Why The Upside Is Structured This Way

This is not a salary and it is not a one-off finder fee. It is a share of real profit, and we have deliberately set the percentages high, because people who create great value should get paid like it. Your income is decided by what you build and how well it runs, not by a fixed number on a contract.

- No cap on your earnings. Add as many units as you want, as fast as we can operate them properly. We grow organically and protect quality, so every unit you add is a unit that performs.
- Recurring income. Your share is paid from each unit's profit month after month, from the unit's first earnings onward, not once at signature.
- A normal BD motion, an unusual reward. The work itself is classic business development: build the pipeline, bring the owner to the table, and we get to signature together. The difference is what happens after: instead of closing and moving on, you keep earning from what you closed.
- You sell with a proven product behind you. Superhost-level guest operations, strong reviews, professional owner reporting and revenue management make the owner conversation far easier to win.
- More angles to close. With our licensed renovation arm we can offer owners upgrades that lift nightly rates, or renovation before resale. That gives you options a standard operator pitch does not have.

How It Works

1. You send us the basic details of a property or owner opportunity.
2. We confirm in writing that the introduction is accepted, which protects it as yours for 6 months.

3. We prepare the proposal and run the owner negotiation with you, and we get to signature together.
4. The unit signs, we set it up, list it and launch it under our licence.
5. From the unit's first earnings, your share is paid from Lux Oasis retained profit on that unit.

What your share is based on

Your commission is calculated on the Lux Oasis retained profit from the specific unit you introduced: our share after the owner payout, direct unit costs and platform adjustments, based on collected revenue. It is a genuine share of what we actually earn from your introduction, so our interests are fully aligned.

What Lux Oasis handles

You are never left alone with an owner. We prepare the owner proposal and support the negotiation with you, we hold the operating and renovation licences, and once the unit is signed we run it end to end: listing and channels, pricing and revenue management, guest communication, cleaning and maintenance coordination, owner reporting and payouts. If you are on the finder route, your involvement can simply stop at signature and your earnings continue.

Good To Know

- Your accepted introductions are protected. If two people bring the same owner, the first documented and accepted introduction is recognised.
- Introductions count when they lead to a signed, launched unit. Sending a public listing link alone does not qualify.
- Lux Oasis signs all agreements, sets all commercial terms and collects all money. Finders never need to promise returns or negotiate owner terms.
- Everything must stay within UAE rules on brokerage, employment and visas. Where a specific legal route is needed, we agree it before any activity starts.
- This document is an invitation to discuss, not a contract or employment offer. Final terms are confirmed in a short written agreement.

Next Step

If you have a real owner, landlord or property route, send us the basic details. We will tell you quickly whether it is accepted, and if it signs and launches, your share begins.

We are happy to walk you through live examples of how the numbers work on a call.
