

CRME Exam Countdown

Study and mock-exam countdown plan.

CRME Exam Countdown Plan

Exam target: 2026-08-08 around 12:00 Asia/Dubai.

Goal: finish the remaining CRME book chapters, complete official-sample review, run timed mock exams and take the real exam only when practice performance is comfortably above the 70 percent pass mark.

Daily Brief Rule Until Exam

Every morning brief until 2026-08-08 should include one short CRME line:

- today's CRME study target;
- whether the plan is on track or behind;
- next action only.

Do not include long study logs in Telegram. Keep details in this file and the CRME study files.

Short Briefing Correction

Damiano corrected that both morning and end-of-day briefs are too long. From now on:

- phone-screen maximum;
 - bullet points only;
 - no evidence logs;
 - no repeated monitor summaries;
 - no full business history;
 - only what matters today, what is blocked, and the single next useful action.
-
