

Lux Oasis Acquisition And Operations Partner Term Sheet

Created: 2026-07-03

Updated: 2026-07-04

Status: working draft for discussion only. This is not a signed contract and needs legal review before use.

Purpose

Lux Oasis Holiday Homes LLC wants to grow the managed-property portfolio through revenue-share and selected hybrid opportunities while protecting cash, operating quality and owner relationships.

This proposal is for a partner who can help source, close, onboard and operate short-term rental units under the Lux Oasis Holiday Homes brand.

Commercial Principle

Partner upside is calculated only on Lux Oasis retained net profit from eligible units.

Lux Oasis retained net profit means the Lux Oasis share after:

- owner payout;
- direct unit costs;
- OTA/platform adjustments;
- agreed unit-specific operating costs;
- collected cash.

Partner upside is not calculated on:

- full property net profit before the owner/Lux Oasis split;
- gross booking revenue;
- owner profit;
- company-level profit;
- other units the partner did not source or operate.

Role Levels

1. Acquisition-Only Partner

Applies when the partner personally introduces or sources the owner/property and helps move the deal to signature, but does not actively manage daily operations after launch.

Recommended upside:

- 20% of Lux Oasis retained net profit from that specific unit.

2. Acquisition Plus Operations Partner

Applies when the partner personally sources the property, helps close the owner, supports onboarding, and actively manages day-to-day operations for that unit.

Recommended upside:

- 25% of Lux Oasis retained net profit from that specific unit.

3. Proven A-To-Z Operating Partner

Applies only after proof that the partner can source, close, onboard and operate units with limited Damiano involvement while maintaining guest, owner, cleaning and revenue quality.

Recommended upside:

- up to 30% of Lux Oasis retained net profit from that specific unit.

30% should be used only where the partner is genuinely replacing fixed payroll or meaningfully accelerating portfolio growth.

What Lux Oasis Provides

Lux Oasis provides:

- DTCM holiday-home licence and operating framework;
- existing Lux Oasis Holiday Homes brand and owner-facing credibility;
- pricing/revenue management oversight;
- owner communication standards;
- guest communication standards and systems;
- operational SOPs;
- listing/account/channel setup support where applicable;
- contract/admin support;
- payment and profit calculation process;
- access to approved tools and workflows where needed.

What The Partner Provides

The partner provides:

- owner, landlord, agent or investor introductions;
- property sourcing and follow-up;
- support closing revenue-share or approved hybrid deals;
- onboarding coordination;
- guest-readiness checks;
- cleaning and maintenance coordination where assigned;
- owner update discipline;
- quality control and issue escalation;
- local market intelligence;
- weekly pipeline and unit-performance updates.

Eligible Units

A unit is eligible for partner upside only if:

- the partner personally sourced or introduced the owner/property, or was assigned the unit by Lux Oasis in writing;
- Lux Oasis approved the deal structure;
- the unit signs under Lux Oasis or an approved Lux Oasis structure;
- the unit launches and generates collected revenue;
- the partner continues performing the agreed role.

Active Contribution Requirement

Partner upside must be earned through active contribution, not only a one-time introduction.

The final contract should make clear:

- introducing a property does not automatically create a permanent passive income right;
- acquisition-only upside is paid only where the partner materially helped source and close the unit;
- operations-level upside is paid only while the partner actively performs agreed operational duties;
- if Lux Oasis ends up doing the operating work without the partner, the partner cannot keep an operations-level share;
- if the partner becomes inactive, the share steps down, pauses, or expires depending on the final agreement.

Active contribution can include:

- owner/agent follow-up;
- deal negotiation support;
- document collection;

- onboarding coordination;
- furnishing/readiness coordination;
- listing/channel setup support;
- cleaner and maintenance coordination;
- guest-readiness checks;
- owner update support;
- issue escalation and resolution;
- weekly pipeline and operating reports.

Minimum Activity And Proof

Before any long-term share, visa support, or elevated percentage applies, the partner should prove:

- real owner, landlord, agent or investor access;
- consistent follow-up and reporting;
- ability to move at least 1-2 units to serious owner-interest/economics stage;
- ability to operate without creating extra daily work for Damiano;
- respect for Lux Oasis standards and approval boundaries.

Required first-contract proof period:

- 60 days before any long-term percentage expectation, visa support, or elevated economics becomes real;
- no fixed salary during proof unless separately approved;
- no visa sponsorship until the candidate has shown serious pipeline value where legally possible.

During the 60-day trial, the key question is simple:

- does the partner actually bring real property opportunities or not?

If the partner does not bring credible owners, landlords, agents, investors or units during the trial, Lux Oasis should be able to end or pause the arrangement without ongoing commission exposure.

Passive Referral Alternative

If someone only introduces a lead and does not help close, onboard or operate, use a smaller referral-style structure instead of ongoing management participation.

Possible structures for pure referral only:

- fixed referral fee after the unit signs and launches; or
- small limited-duration percentage of Lux Oasis retained net profit; or
- acquisition-only percentage that expires after a defined period.

Do not give 25-30% ongoing upside to someone who only brings the property and then disappears.

Payment Timing

Partner share is calculated monthly and paid only after:

- guest/OTA revenue is collected;
- owner payout is settled or accrued;
- direct unit costs are deducted;
- the Lux Oasis retained net profit is confirmed.

No partner share is paid on uncollected revenue, owner money, deposits, refunds, cancelled stays, or disputed amounts until resolved.

Helper Or Junior Support

If the partner uses a helper, the people-share pool must remain capped.

Preferred approach:

- partner receives the agreed 25-30% and manages/pays the helper from that pool.

Alternative:

- Lux Oasis may approve a separate junior operations cost only when the portfolio economics can support it.

Do not stack 30% to the lead partner plus a separate helper share on the same unit unless the unit is unusually strong and still protects Lux Oasis' AED 50,000/month operating-profit target.

Visa And Insurance

Visa and insurance support is not automatic.

Planning range:

- AED 8,000-10,000 per sponsored person in normal planning;
- AED 12,000 stressed budget.

With AED 135,000 current cash, Lux Oasis should sponsor one serious acquisition/operations person first only after proof of real owner/agent access. A second person should be staged after signed pipeline or proof. Lux Oasis should not sponsor three or more people from current cash before new unit revenue is proven.

If visa/insurance is provided, Lux Oasis may require:

- minimum trial period;
- minimum lead/conversion expectations;
- vesting period;
- recovery or offset terms where legally and commercially appropriate;
- written role obligations.

Trial Period

Recommended first stage for Syed Imran or similar candidates:

- 60-day commercial trial;
- target 5-10 real owner/agent routes;
- target 1-2 units reaching serious owner-interest/economics stage;
- weekly pipeline update;
- no fixed salary during trial unless separately approved.

The 60-day trial should be written into the first contract as a proof gate, not treated as an informal understanding.

Suggested trial contract position:

- Week 1: agree role, percentage framework, allowed outreach routes, reporting format and approval boundaries.
- Weeks 1-4: partner proves real owner/agent/investor access and sends weekly pipeline reports.
- Weeks 5-8: Lux Oasis checks whether any leads reached serious owner-interest, economics discussion, viewing, document collection, or signed-unit stage.
- End of day 60: Lux Oasis decides whether to continue, step up the role, sponsor visa/support, keep only referral/acquisition-only terms, or stop.

No long-term 25-30% operations-level economics should be promised until this trial proves the partner can actually bring properties and contribute operationally.

Quality Standards

The partner must protect:

- guest experience;
- owner trust;
- Lux Oasis brand reputation;
- cleaning and maintenance standards;
- revenue-management discipline;
- documentation and handover quality.

High-risk guest, owner, legal, payment, refund, pricing, listing, access or contract decisions must be escalated to Damiano/Lux Oasis before action.

Step-Down Rule

If the partner stops actively managing a unit, the ongoing share should step down from operations level to acquisition-only level, or expire after a defined period, depending on the final agreement.

Non-Circumvention And Confidentiality

The final contract should include:

- non-circumvention around owners, landlords, agents and units introduced through Lux Oasis;
- confidentiality of owner details, pricing, revenue, guest data and internal workflows;
- prohibition on using Lux Oasis materials, owners, leads or systems outside the approved relationship;
- clear handover obligations if the partnership ends.

Recommended Starting Offer

For Syed Imran or a similar acquisition-plus-operations candidate:

We can structure this around upside from the Lux Oasis retained profit on units you personally bring and help operate. The first contract should be a 60-day trial so both sides can see whether you can bring real owners, agents, investors or units. For acquisition-only, the share can be around 20%. If you source, help close, onboard and actively manage the unit, it can move to 25%. A higher level, up to 30%, is only for proven A-to-Z performance where you are genuinely managing the unit and reducing our daily workload. This is always on the Lux Oasis retained profit after owner payout and direct costs, not the full property profit or company profit. At the end of the 60 days, we continue or step up only if the property pipeline and contribution are real.

Open Points Before Signing

- Exact legal entity and visa sponsor.
- Whether the person is employee, consultant, contractor or commission partner.
- DTCM / labour / immigration compliance.
- 60-day trial wording and what happens at the day-60 review.
- Whether visa cost is reimbursable, vested, or absorbed.
- Exact payment calculation template.
- Exact duration of revenue share.
- Step-down or expiry after the partner stops operating.
- Legal review of non-circumvention and confidentiality.
